CNF Receives Generous Support from CEPF

Dear Friends,

We're delighted to report that CNF has been awarded renewed support from the [Critical Ecosystem Partnership Fund \(CEPF\)](#).

CEPF's second grant of \$350,000 will be combined with comparable funding from the [World Wildlife Fund \(WWF\)](#) to cover operating costs as we build out CNF's programs and funding base.

These generous grants mean that all other contributions to CNF in 2011-12 will go directly to work in the field—protecting the magnificent wilderness of the South Caucasus.

For more information on these projects, visit our website at www.caucasus-naturefund.org.

Yours very truly,

David Morrison
